**RUSSELL
PUBLISHING** TITLE

European pharmaceutical review

European Pharmaceutical Review is the leading publication for information on technologies in drug discovery and manufacturing. Published bi-monthly, every issue offers a high level of technical and business contributions from the world's leading pharmaceutical companies and academic institutions, coupled with a variety of exciting new features including interviews, updates and profiles.

A must read

European Pharmaceutical Review has been keeping the industry informed for more than ten years and remains faithful to the key facets that serve its existing stakeholders so well: insights into current and emerging technologies, contributions from recognised figures in the life science community and quality presentation that makes every issue a reference tool for laboratories and offices across the world.

Past Contributors:

Dr Wolfram Carius	Head of Business Unit Biopharmaceuticals, Boehringer Ingelheim Pharma KG
Dr Samir Hanash	Chair Human Proteome Initiative Committee, Fred Hutchinson Cancer Research Centre
Dr Peter Machin	Senior Vice President (Chemistry & Screening Sciences, R&D), GlaxoSmithKline
Prof. Alex Matter	Director, Novartis Institute for Tropical Diseases
Sir Tom McKillop	Past-Chief Executive, AstraZeneca
Julian Mount	European Director of Trade, Pfizer
Peter van Broeck	Associate Director (Chemical Development) Johnson & Johnson Pharmaceutical R&D
Dr Andreas Weith	Associate Director (Genomics), Boehringer Ingelheim Pharma GmbH & Co K.G
Thomas Keller	Head of Applied Technology Group, GlaxoSmithKline R&D
Joep Timmermans	Team Leader, Process Analytical Support Group, Pfizer Global Manufacturing

Editorial Board

Members of our Editorial Board include:

Dr Anne Katrin Werenskiold	Project Manager, Interaction Proteome
Ken Leiper	Benson Associates
Dr Gordon Alton	Dept. of Biochemistry, Pfizer Global R&D
Matthew Moran	Director of the Irish Pharmaceutical and Chemical Manufacturers Association
Dr Michael J Dunn	SFI Research Professor of Biomedical Proteomics, University College Dublin
Don Clark	Pfizer Global R&D

Russell Publishing Ltd

Russell Publishing Ltd is a leading international publisher across a range of titles from finance to pharmaceuticals, food to transportation since 1992, each of our titles now enjoys wide sector recognition by both advertisers and subscribers alike.

In addition to our leading publications, throughout the year we are responsible for producing conferences, roundtable discussions, newsletters and supplements for the industries we serve. Each of these products contribute towards the overall strategy of becoming an indispensable partner to all of our target customers.

“ European Pharmaceutical Review provides me with the latest industry news and developments.

With interesting but technically detailed articles every issue represents a must read ”

Steve Hammond,
Director Process Analytical Support,
Pfizer

“ European Pharmaceutical Review provides a unique blend of up-to-the-minute technological overviews, key product information and company news relevant to pharmaceutical research at all levels ”

Dr Neil Kitteringham,
Senior Lecturer, Pharmacology,
University of Liverpool

Gary King
Sales Director

Why should I advertise?

Advertising in **European pharmaceutical review** will give you:

- A specialised editorial environment which complements your advert
- A larger audience than any other quarterly magazine serving the industry
- An exclusive presence in the office of key decision-makers

Within each issue there is limited availability for advertisements. Our strict editorial guidelines, which cover where advertisements can be placed, allow us to maintain the visual appeal of the magazine, benefiting both the advertiser and reader. This means you can be confident when working with **European pharmaceutical review** that your message will have maximum impact with the reader.

Advertisers in 2007 include:

ABB	Eppendorf	MicroCal
AES Chemunex	Eurogentec	MIDI, Inc.
Agilent Technologies	Exiqon	MSK Umetrics
Ambion Inc.	Fluidx	Molecular Devices
Amersham Biosciences (now GE Healthcare Biosciences)	Foss NIR Systems Inc.	Optimal Industrial Automation
Ametek	GE Analytical Instruments	Pall Life Sciences
Applied Biosystems	GE Healthcare Biosciences	Perkin Elmer Life & Analytical Sciences
Avantium Technologies B.V.	GEA Niro A/S	Quintiles
BASF	GEA Lyophil GmbH	REMP AG
BD Biosciences	Genomic Solutions	Shield Medicare Ltd
Beckman Coulter	Greiner Bio-One	Siemens
Bio Rad	Hach Ultra Analytics	Sigma-Aldrich
Bruker Daltonics	Hitachi	Singapore Tourist Board
Bruker Optic GmbH	IDBS	SP Industries
Buchi Labortechnik AG	IDT	Swiss World Cargo
Caliper Life Sciences	Interpex India	TA Instruments
Carl Zeiss Dept of Spectroensor	Invitrogen	Teraview Ltd
Catalent	Ipac Ima	Thermo Fisher Scientific:
Celsis International PLC	ISPE	Matrix Products
Charles River	ITT Jabsco	Abgene Products
Cytocentrics	Kaiser Optical Systems Inc.	Cellomics Products
DeltaDot	Lonza	Biologie Products
Dionex Corporation	Matrix Technologies	Hyclone Products
Discoverx	Mayo Clinical Trial Services	Topics A.K.C
DSM Biologics	Meggle	TTP Labtech
	Mettler Toledo	Waters Corporation
		Werum
		Zinsser Analytic

ABC

ABC is an independent audit watchdog service for printed publications www.abc.org.uk

“ I have found European Pharmaceutical Review to be an excellent conduit for getting my marketing message across. The staff are always sensitive to my individual needs and, from my own research, I know the magazine is widely respected throughout the industry. The articles are both well presented and relevant, supplying editorial of great benefit to the pharmaceutical community ”

Stuart Bradley, European Marketing Manager, Ambion (Europe) Ltd

“ European Pharmaceutical Review is required reading for everyone in the pharmaceutical industry and as such offers me an excellent platform to reach my target audience. As such it forms an integral part of my media schedule each year ”

Fredrik Lindgren, VP Sales and Marketing, Umetrics

“ In this technology driven industry, one thing that is central to Carl Zeiss' marketing is that any advertising is seen by the right people who understand the potential uses of our products. Through working with European Pharmaceutical Review, I have been able to target potential customers effectively regardless of where in the world they are based ”

Vinod Mehta, Product Manager (Spectral Sensors Group), Carl Zeiss Ltd

Readership and circulation

ABC audited, **European pharmaceutical review** is regularly distributed to 12,000 key decision makers across Europe. Typical job functions include Managing Directors, Process Engineers, Chief Engineers, Production Directors, Plant Managers, Product Managers, Laboratory Managers, Quality Assurance Managers, Quality Control Managers, Procurement Directors, Heads of R&D, Senior Scientists and other senior purchasing personnel.

Passed down through the management chain, we estimate that the total readership of **European pharmaceutical review** is 30,000 for each issue. This represents a highly targeted advertising opportunity for companies such as yourself, who wish to influence the key decision makers in what is a vitally important industry.

Regular Features

Each issue contains authoritative articles on the following topics:

Analytical techniques
RNA
Proteomics
Process Analytical Technology
Laboratory automation
Screening
Manufacturing
Process development
Plant construction
Quality control
Previews of all major conferences and exhibitions

All features listed above are subject to change and editor's final approval

Specifications

We supply our printer with high resolution print ready pdf files. We would therefore ask if you could supply your artwork in the same format. In order to help you with this, we have prepared our own pdf kit (both Mac and PC), which contains all the information and peripheral files needed to create the file to our exact specifications. Download this kit from www.europeanpharmaceuticalreview.com

Features List 2008

Issue 1 2008

Published: January 18th 2008

Advert Copy Deadline: December 18th 2007

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Assay Development
- Cleanrooms
- Toxicology
- Microbiology
- PAT (round table feature)
- Industry Insight – Vendor Interview

Previews: Analytica, ABRF, IFPAC, Screening Europe

Issue 2 2008

Published: March 14th 2008

Advert Copy Deadline: February 14th 2008

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Aseptic Processing
- LIMS/ELNs
- Thermal Analysis/Calorimetry
- Protein Crystallography
- PCR
- Personalised Medicine
- Secondary Screening (round table feature)
- Industry Insight – Vendor Interview

Previews: Miptec, ASMS, SBS

Issue 3 2008

Published: May 14th 2008

Advert Copy Deadline: April 14th 2008

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Microbiology
- Ion Channel Electrophysiology
- Freeze-Drying
- Cell Culturing
- Pharma facility insight
- Biopharmaceuticals
- Industry Insight – Vendor Interview

Previews: BSPR, ELRIG

Issue 4 2008

Published: July 18th 2008

Advert Copy Deadline: June 18th 2008

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Automated Drug Discovery
- Aseptic Processing
- Cleanrooms
- Thermal Analysis/Calorimetry
- Clinical Trials (round table feature)
- LIMS/ELNs
- Industry Insight – Vendor Interview
- PCR

Previews: RNAi Europe, HUPO, IUCR, ELRIG/SBS

Issue 5 2008

Published: September 9th 2008

Advert Copy Deadline: August 9th 2008

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Crystallography
- Aseptic Processing
- Outsourcing
- Freeze-Drying
- Toxicology
- Biomarkers (round table feature)
- Industry Insight – Vendor Interview

Previews: HCS Europe, PMEC/ICSE

Issue 6 2008

Published: November 14th 2008

Advert Copy Deadline: October 14th 2008

- RNA (relevant technologies)
- Proteomics
- High Content Screening
- PAT
- Microbiology
- Automated drug discovery
- Peptides
- Genomics
- Thermal Analysis/Calorimetry
- Industry Insight – Vendor Interview
- PCR

Previews: Lab Automation, Peptalk, Advances in Protein Crystallography
